## BASE BALL.

The exhibition season of the Wheeling base ball club was to have opened yesterday afternoon with a game between the Nallers and the team of Pittsburgh professionals led by the well known one-armed pitcher, George England, who is better known here as one of the Iron and Oil League umpires in 1895. Unfortunately the rain of the morning was so hard that the grounds were in very bad shape in the early afternoon and at 3 o'clock it was announced that there would be no game. So day, however, if the weather is at all favorable the two teams will come together, and as England's team is made up of good material, it is assured that a good game will be seen. As this is the first opportunity the local fans have had to see the players at the game, who have been signed by the Wheeling management, doubtless there will be a large attendance.

The players of the Wheeling team put in part of the morning and an hour or two of the afternoon in practice work, and the crowd of early bird fans who were out to get a line on the players expressed themselves as delighted with the men. Individual mention is not necessary, as every man of the lot did good work. Manager Coyle has a hard task ahead in picking out fourteen men who will be kept on the team through the season. O'Brien, Kress, Lyons, Taylor, Messitt, Curtis, McMechen and McKeen are supposed to be fixtures, although the good work of McMechen may give him a regular place on the team. At least he will be kept as a general utility man. Of the pitchers it is believed Coyle, Easton, Campbell and Garvey or Baker will be kept, though some of the young bloods who are to be tried out in the exhibition season may oust some of the old-timers.

It is bad enough that the new Castle County Courthouse should steal items from the Intelligence base ball column, but when other Inter-state papers reproduce the same news and give credit to the paper that was guilty of the theft, it seems time to make a cry.

Glasscock is hitting at a merry clip for St. Paul in the exhibition season, but Billy George does not seem to have got his optics on the Spalding yet. But he'll come around all right ere long.

Springfield's new major, a Democrat, and the only one successful at the municipal election there this week, is the president of the Inter-state club, and is taken to mean that Sunday ball will be played in the Ohio town.

Con Strouthers has now seventeen men signed for his Mansfield team, and the only reason that they have not been ordered to report is that the new park is not ready for use, says the Columbus Journal. When his players do arrive and get a few days' practice together, the Mansfield people will discover that they are to be in for a real base ball team this season, and if they are not in the first division after the season is fairly under way, it will be because all of the teams are so evenly matched that the position in the race fluctuates each day.

To read one of the Toledo papers one might think that they have a lot of National League talent on the team. They want to steal away from them. Strobel is hard up and is trying to sell some of his players, but as yet no one has accepted the bait. It is claimed by the pipe artist of that city, who has been in more or less of a tangle with the Columbus players, that one of the Toledo players, this is an absurd assertion, as there is not a man on the team who could be used by Manager Strobel. He has made an effort to secure players under contract to Manager Strobel, who will know more about base ball and have less money when he gets through at Toledo. That town is so dead on base ball that the papers assert that it will be positively necessary to have a park right in the heart of the city, or at least within easy walking distance of the central points. That is all that can be expected in a trolley car season, but in Columbus the people go three miles by electric cars, and turn out well at that.—Columbus Journal.

"Bill" Johnson was in a conversational mood at the Hotel last night, and being a natural comedian, got off some "good ones." He intends to play ball this year, though, and says he will travel on his good behavior, henceforth. "Bill" must have had ambitions in his youth to pose as the "tattooed man" at a circus, for the numerous hieroglyphics on his arms were scratched when he was ten years old.

**Australian Ball Players.**  
SAN FRANCISCO, April 8.—The Australian base ball players who are starting out on a tour of the world, have arrived in this city on the steamer Monarch. They were expected here today, in sight-seeing before practicing for their opening game, which will be with the Olympics a week from Sunday at Central park. The nervy athletes who have come thousands of miles to see the best of the best ball players of Australia compare with those of this country and to learn points if deficient are thirteen in number. The team has several substitutes ready to play cricket as well as base ball.

## CYCLING.

It was at a Canadian race meet in W. Fred Loughead was present, and, being the star of the country, had won all four races of the day, says Bearings.

"That's good," said Fred to a friend standing near. "I promised this stone to my sister, and she will be glad I got it."

"But your sister is not present, and she could not have been there particularly to see you," could she say which one she wanted?

"Oh, but she saw them all right," said Fred. "I owned them once, and sold them only this morning to the promoters here. Now they belong to me again, and I can give her the one she wanted."

Loughead won seventy-eight firsts in '96, and Zimmerman one hundred, and

one in '93. These two lead in the number of winnings for a season.

Eddie Bald had not much chance to do any outdoor training on account of the weather, but has done considerable indoor work at Louisville, with Otto Maya as a sparring partner. Hardly a day passes that another chance for a match race is not offered him. Now Orin Kimble is after him, with prospects of success in the arrangement. Kimble has offered to ride him either unplaced from scratch or from opposite side of the track, but Bald has so far insisted on pacemakers, which are impossible to get now, as none of the men are in condition to ride fast enough for such an event. Trainer McDonald is very anxious to have the match take place.

One afternoon during the Pavilion meet in San Francisco, James J. Corbett, the defeated champion in the ring, met the undefeated champion in the ring, and the two fought a fierce fight. Corbett's horse stood on end as he was dismounted from his wheel, his face was white, and cold perspiration stood out all over him.

"I was riding right into the side of a stone wall," said he, "and the wall was hitting me right in the face all through that terrible experience."

Corbett went out again on a tandem, behind Dixon, who was just as bad there. He was unable to push a pound while rounding the banks, and during the ride he hung on for grim death. "I would rather have another blow from Fitz than try that again," said he, "and I am sure to see who was present. But the story leaked out."

**Pierce Fight at Sistersville.**  
SISTERSVILLE, W. Va., April 2.—This afternoon a fight was pulled off in this city, between Charles Craven and Matthew Arnold, for fifty dollars. The fight was a close one, and a fierce fight, and was won by Craven. About two hundred people attended.

## McMECHEN MATTERS.

**A Runaway Engine Smashes Things.**  
News Notes and Personalities.  
A peculiar accident occurred in the Baltimore and Ohio yard at Benwood Junction, yesterday morning about 12:20 a. m. Engine No. 871 in charge of Engineer Charles Garvey, was on a train of round-house for train No. 8. By some means the steam from the throttle escaped unnoticed and all at once the engine started off down the track. Engineer Garvey, who was on the ground at the time, leaped aboard, but could not get it stopped. The engine ran down the ice-house track to McMechen and crashed into yard engine No. 104, blowing up a train standing there, smashing a caboose and several cars before he could get it stopped. Fireman Broxmeyer sprained his wrist very badly in the accident. No blame can be attached to anyone for the occurrence, as Engineer Garvey used every means at his command to prevent the accident.

Mr. W. J. McMechen has commenced work on a new four-story brick building on the corner of Pike street and McMechen avenue. It is to be the distillery, and will be about 100 feet long. The lower story is to be used by Mr. McMechen as a place of business and the upper portion as a hall.

There was a bad slip in the narrow below town, yesterday morning, the result of which was a number of injuries and several deaths.

James Jones and Frank Kincaid, of the Baltimore and Ohio road, have resigned their positions to go into other business.

Mr. Charles Stewart, recently of Oklahoma, contemplates a trip to Huntington, W. Va., in the near future.

J. Stewart, of Steubenville, O., is visiting his son, Brakeman Thomas Stewart.

Edward Morris and wife are visiting friends in Bridgeport.

## MOUNDVILLE.

**A Miscellaneous Melange of Minor Matters from Marshall's Metropolis.**

J. W. Yates was committed to jail yesterday, charged with adultery. He was brought down from Benwood by a special train, and is now in the city jail. He is ten days in jail. Mary Jane Chance was brought in from Meade district and put in jail for bigamy to remain several days. The third new arrival at Jailer Cunningham's hotel is James Gordon, who assaulted C. S. Good in Liberty district.

The funeral of Dr. G. W. Hoskinson will take place from his late residence on Jefferson avenue this morning at 3 o'clock. Rev. J. B. Smith, pastor of the Christian church, will officiate.

Harry Wiedman and Miss Ada Wilson were married on Wednesday evening, at Glen Easton, by Rev. D. W. Ruble. They have taken up their future residence in Wheeling.

Miss Julia McGee is quite sick, threatened with typhoid fever.

## MARTIN'S FERRY.

**Maps and Maps in the Thriving City Across the River.**

David Neal, better known as "Fattie" Neal, says he is the man who burglarized the residence of Jesse Bonar, on Locust street, on Wednesday morning. He saw that the authorities had worked up a strong case against him and made a confession yesterday to Mayor George B. Harr and Marshal William Burns, saying that he alone robbed the house while he was drunk.

He says he entered the house through a rear window down stairs, could not find anything of value and decided to leave. He was carrying a satchel containing a suit of clothes at Blum Bros', put on the new suit and left \$100 tied up in a handkerchief in his old clothes, which were left at Blum's.

The \$100 consisted of a \$100 bill, a \$50 bill and six \$10 bills. At Blum's a \$50 bill was given in payment for the clothing and Neal received the change. This bill was found in a bank by Marshal Burns, on a cut in Neal's finger, which was done as he was entering the house, and blood was also found in the window, on the trunk and on Neal's old clothing. A piece of button was found below the window and the remainder on Neal's vest.

When Neal was arrested in Wheeling only \$23 was found on his person, which is \$187 less than Bonar had deposited in the trunk. Bonar expected to use the money in the purchase of a small place in the country.

Rev. W. J. Williams, rector of St. Paul's Episcopal church, will preach a special sermon in the church to-morrow morning at 10:30, to the Junior Mechanics' fair, which will be held in the church on the occasion.

The Rev. Mr. Williams will talk at their banquet were highly pleased with him and they will turn out in large numbers. Both the Hawaiian and Starvation at 9:30. All Junior Mechanics and former members of the order are cordially invited to turn out and march to the church in a body. The edifice has been given a thorough overhauling.

President M. M. Garland, of the Amalgamated Association of Iron and Steel Workers, will address the members of Mountain City Lodge, No. 56, at a special meeting to be held in the lodge room this morning at 10:30. The meeting will be an important one and a large attendance is desired. As most of the mills at the Aetna-Standard are off to-day, there will doubtless be a large turnout.

For road supervisor in the Burlington district, John Smith and Thomas Nevin each received seven votes at the election on Monday. Yesterday a copy of the election returns was sent to John's father, and Nevin won.

**Deafness Cannot be Cured** by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a running ear, which is not cured by local treatment, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and the tube restored to its normal condition, hearing will be destroyed forever, and the cause of deafness is not cured by local treatment, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

David Neal, the fellow who stole the trunk and \$100 from Jesse Bonar, at Martin's Ferry, came to Bellaire immediately after making his rich pull, and bought a suit of clothes, new hat, etc., at Blum Bros', leaving his old clothes at the store. The old clothes now turn up as indispensable evidence against Neal, and in paying for them he gave a \$50 bill, was not content to use any of the tens, though in the money stolen there was one \$100 bill, a \$50 bill and six \$10 bills. Neal wanted change and used the \$50 bill the first opportunity he had to spend any money, except his fare to this city. But his career of pleasure was cut short by the fact that the police were waiting for him at the city yesterday morning. His report as to the conditions for free delivery here will be anxiously awaited. But as Bellaire is entitled to that service by reason of its population and the receipts of the office, no minor details are likely to interfere, and the service will be granted some time during the ensuing year, beginning July 1.

Louis Long, a miner working in Morgan's coal mine, fell from a fall of coal into a tank on Thursday, and seriously injured. He was taken to his home in the Fourth ward, and an examination made. No bones were broken, but he will be confined to his home for some time.

The cylinder head on an engine at the steel works blew out Friday morning, throwing the men out of work the rest of this week. The plate mill had to close down, also. It is said the steel works will resume Monday.

Samuel Robinson, advance agent for "Hollywood's Wedding" was in the city yesterday, making arrangements for that attraction here.

James Kinney has returned from Piedmont, W. Va., where he was on business the fore part of this week.

James Dolan will move his family to New York City, the first of next week, where they will reside in the future.

Mr. E. Criswell will leave Monday, for Youngstown, Ohio, where he will visit friends and relatives.

The two-week-old baby of Mr. and Mrs. Thomas Tobin was born yesterday, in the Catholic cemetery.

When a woman goes to a hospital for an operation, she realizes at last that the mistake she has made in disregarding what she thought were trifling symptoms. Whenever there is the slightest disorder of the organs, it is feminine, a woman's health and life are threatened. A cure cannot be too quick. Loss of her health means more than loss of life. It means the loss of dear things—the loss of husband's love, the loss of children's happiness, the loss of position, the loss of the woman's life. It is a sad thing to see a woman who is sick and who should look for the cause in some disturbance of the purely feminine organism, and she should take prompt measures to stop it. She should take Dr. Williams' Pink Pills for Pale People. This wonderful medicine is the invention of a regularly graduated, skilled and expert specialist in the disease of women, and has had the most marvelous success of any medicine ever prepared.

Mrs. P. B. Charters, of No. 410 Humphreys St., St. Louis, Mo., writes: "I am now a happy mother of a fine, healthy baby girl. I feel that your 'Favorite Prescription' and 'Little Pills' have done more good than anything I have ever taken. Three months previous to my confinement I sent for your medicine, and felt satisfied to try your medicine. I took three bottles of the 'Prescription' and my baby was born healthy and strong. I was in labor forty-five minutes. With my first baby I suffered six hours, then had to lose him. For two years I suffered untold agony, and in the meantime had two miscarriages. I cannot speak too highly of your medicine. It saved my life. I took the 'Prescription' and yet three weeks ago I did not feel better than I did when I first took it. I feel that it is a blessing to me and am still taking it. I find it strengthening to myself and to the baby."
